**Building Better Essays** Gina Hogan 2012-01-06 Teaching writing as part of a building activity provides students with an easy to remember image that helps them understand and apply good writing construction. This building process helps them see how each writing block sets the foundation for the next block; as a result, their confidence in writing skills grows. The first foundational block is writing correct sentences, the second, writing effective paragraphs, and finally writing effective essays. Just as actual foundations require raw materials, so does each writing building block require specific elements. For example, in grammar, to build a correct sentence, you need nouns, verbs, prepositions, conjunctions, and other grammatical elements. As the third book of the Building Better series, *Building Better Essays* builds on students' knowledge of effective paragraph construction, covered in *Building Better Paragraphs*, to get them to the next step of putting paragraphs together successfully for coherent essays. **Assessing the English Language Writing of Chinese Learners of English** Liz Hamp-Lyons 2022-05-24 This book focuses on the assessment

of English language writing in China mainland, the territories of Hong Kong and Macau, and Taiwan. The first part of the book describes how writing in English has been assessed in Chinese contexts in the past 25 years, and how it continues to be assessed at present. The second part of the book presents reports of work such as formative classroom-based assessment, feedback-based or feedback-led approaches, learning-oriented assessment, portfolios, as well as the important issue of teacher professional development in writing assessment. This two-part division relates to and reflects what has been happening in writing assessment internationally, in the UK from the 1940s, and in the US in the past 25 years. The use of English for international business communication, for international political negotiations and its rapidly increasing use as a medium of instruction in some subject areas has led to a rapid increase in the numbers of Chinese L1 speakers who are learning and being assessed in English. This is often done with an emphasis on reading and writing. The vast majority of assessments of English language writing are done through large-scale direct testing that uses simple prompts/tasks and short writing samples. This book explores best practices in assessing the writing in English of native speakers of Chinese. Assessing the English Language Writing of Chinese Learners of English edited by long-time experts Liz Hamp-Lyons and Yan Jin clearly demonstrates the authors' collective years of writing and teaching about writing assessment. The book's 13 chapters, written by recognized experts in assessment of Chinese speakers learning English, represent a wide array of important topics written in reader friendly language and offering evidence for pedagogical practices as well as high-stakes testing of writing. Teachers, researchers, administrators of writing programs in China, and test developers who seek counsel about this population need look no further than to add Assessing the English Language Writing of Chinese Learners of English to their reading list. *The ESL Writer's Handbook, 2nd Ed.* Janine Carlock 2017-12-20 The ESL Writer's Handbook is a reference work for ESL students who are taking college-level courses. Because its purpose is to provide help with the broad variety of writing questions students may have when working on school assignments, the text focuses on English for Academic Purposes. Unlike other handbooks on the market, this book's sole purpose is to address the issues of second language learners. The spiral-bound

Handbook complements a student writer's dictionary, thesaurus, and grammar reference book. It would be suitable as a text for an advanced ESL writing course when used together with the companion Workbook (978-0-472-03726-1). The new edition features significant revisions to Sections 3 and 4; in particular, both APA and MLA style guides have been updated and new sample papers for each are included. The new edition includes new and revised exercises and many new samples of student writing. Like its predecessor, the 2nd Edition has these special features:

The topic selection is based on ESL writers' needs as observed by the authors over many years. The coverage of topics is more complete than the limited amount usually provided for ESL writers in first language or L1 handbooks. The explanatory language is appropriate for ESL students, in contrast to the more complex and idiomatic language of other English handbooks. Many of the examples of paragraphs, essays, research papers, and exercise sentences were written by ESL students to help users realize that they too can become effective writers.
