Auto Repair For Dummies Deanna Sclar 2019-01-07 Auto Repair For Dummies, 2nd Edition (9781119543619) was previously published as Auto Repair For Dummies, 2nd Edition (9780764599026). While this version features a new Dummies cover and design, the content is the same as the prior release and should not be considered a new or updated product. The top-selling auto repair guide--400,000 copies sold--now extensively reorganized and updated Forty-eight percent of U.S. households perform at least some automobile maintenance on their own, with women now accounting for one third of this \$34 billion automotive do-it-yourself market. For new or would-be do-it-yourself mechanics, this illustrated how-to guide has long been a must and now it's even better. A complete reorganization now puts relevant repair and maintenance information directly after each automotive system overview, making it much easier to find hands-on fix-it instructions. Author Deanna Sclar has updated systems and repair information throughout, eliminating discussions of carburetors and adding coverage of hybrid and alternative fuel vehicles. She's also revised schedules for tune-ups and oil changes, included driving tips that can save on maintenance and repair costs, and added new advice on troubleshooting problems and determining when to call in a professional mechanic. For anyone who wants to save money on car repairs and maintenance, this book is the place to start.

Deanna Sclar (Long Beach, CA), an acclaimed auto repair expert and consumer advocate, has contributed to the Los Angeles Times and has been interviewed on the Today show, NBC Nightly News, and other television programs.

Medical Anthropology Andrea S. Wiley 2009 Intended as the primary text for introductory courses on medical anthropology, this book integrates human biological data relevant to health and disease with both evolutionary theory and the social environments that more often than not produce major challenges to health and survival. Because students who take this fastest-growing anthropology course come from a variety of disciplines (anthropology, biology, especially pre-med students, and health sciences, especially), the text does not

assume anything beyond a basic high-school level familiarity with human biology and anthropology.

The authors first present basic biological information on a particular health condition and then expand their analysis to include evolutionary, historical, and cross-cultural perspectives. Among the topics covered are nutrition, infectious disease, stress, reproductive health, behavioral disease, aging, race/racism and health, mental health, and healers and healing.

An American Sunrise: Poems Joy Harjo 2019-08-13 A stunning new volume from the first Native American Poet Laureate of the United States, informed by her tribal history and connection to the land. In the early 1800s, the Mvskoke people were forcibly removed from their original lands east of the Mississippi to Indian Territory, which is now part of Oklahoma. Two hundred years later, Joy Harjo returns to her family's lands and opens a dialogue with history. In *An American Sunrise*, Harjo finds blessings in the abundance of her homeland and confronts the site where her people, and other indigenous families, essentially disappeared. From her memory of her mother's death, to her beginnings in the native rights movement, to the fresh road with her beloved, Harjo's personal life intertwines with tribal histories to create a space for renewed beginnings. Her poems sing of beauty and survival, illuminating a spirituality that connects her to her ancestors and thrums with the quiet anger of living in the ruins of injustice. A descendent of storytellers and "one of our finest—and most complicated—poets" (Los Angeles Review of Books), Joy Harjo continues her legacy with this latest powerful collection.
