**The Blue Ridge Tunnel** Mary E. Lyons 2014-02-25 The true story of the construction of the historic Crozet railroad tunnel—as seen through the eyes of three Irish immigrant families who helped build it. In one of the greatest engineering feats of the time, Claudius Crozet led the completion of Virginia’s Blue Ridge Tunnel in 1858. More than a century and a half later, the tunnel stands as a National Historic Civil Engineering Landmark, but the stories and lives of those who built it are the true lasting triumph. Irish immigrants fleeing the Great Hunger poured into America resolved to find something to call their own. They would persevere through life in overcrowded shanties and years of blasting through rock to see the tunnel to completion. In this intriguing history, Mary E. Lyons follows three Irish families in their struggle to build Crozet’s famed tunnel—and their American dream. Includes photos and illustrations

*Collier's Guide to Night Photography in the Great Outdoors - 2nd Edition* Grant Collier 2020-08-25 The night sky may be the most awe-inspiring

spectacle that any of us will ever see. It can, however, be difficult to capture in a photograph, as it requires specialized techniques that are rarely used when shooting images during the day. Renowned photographer Grant Collier sheds light on how to capture these otherworldly images by sharing secrets he has learned over the past 14 years. He explains how to take photos of the Milky Way, northern lights, meteors, eclipses, lightning, and much more. Grant begins by reviewing equipment and supplies that are helpful when photographing at night. He then discusses many software programs, web sites, and mobile apps that will help you plan your shots. Finally, he offers extensive advice on how to capture and process images at night. He goes beyond the basics and teaches how to blend multiple exposures and create huge stitched images to capture incredibly detailed photos that you never before thought possible! The 2nd Edition has been completely updated and includes 50 new images. The sections on cameras and lenses have been rewritten and now includes tables to make it easier see all of the recommended gear. All of the web links have been updated, and include many new websites you can use to plan your photos. All information on post-processing has been updated for use with Photoshop and Lightroom CC 2020. This includes some powerful new techniques for blending multiple exposures taken at night. There is also new information on

Photoshop plug-ins and other software that is useful for night photography.

**East Branch & Lincoln Railroad** Erin Paul Donovan 2018-06-04 Built by James Everell Henry, the East Branch & Lincoln Railroad (EB&L) is considered to be the grandest and largest logging railroad operation ever built in New England. In 1892, the mountain town of Lincoln, New Hampshire, was transformed from a struggling wilderness enclave to a thriving mill town when Henry moved his logging operation from Zealand. He built houses, a company store, sawmills, and a railroad into the East Branch of the Pemigewasset River watershed to harvest virgin spruce. Despite the departure of the last EB&L log train from Lincoln Woods by 1948, the industry's cut-and-run practices forever changed the future of land conservation in the region, prompting legislation like the Weeks Act of 1911 and the Wilderness Act of 1964. Today, nearly every trail in the Pemigewasset Wilderness follows or utilizes portions of the old EB&L Railroad bed.

**Arches National Park by Day and Night** Grant Collier 2010-01-01 Arches National Park in eastern Utah is one of the most unique places on the planet. It contains an immense array of sandstone sculptures, including fins, spires, pinnacles, balanced rocks, and natural arches. The arches range in size from small openings to enormous spans measuring nearly 300 feet across. Renowned photographer Grant Collier has photographed the most popular rock formations in Arches National Park, along with many remote and little known natural wonders. He has captured the brilliant display of wildflowers in spring, the blazing color of cottonwoods in autumn, and the remarkable beauty of white snow

against red rock in winter. Collier has also spent countless nights photographing the rock formations beneath a canopy of stars, planets, and meteors. His images provide a stunning new perspective on this extraordinary national park.

[Free Outside](#) Jeff Garmire 2019-09-03 Jeff Garmire was living the fast paced life of a successful young professional when he gave it all up to embark on the adventure of a lifetime. He set out to become only the fifth person to thru-hike the Pacific Crest Trail, Appalachian Trail and Continental Divide Trail in a single calendar year. Finishing the 8,000 mile Calendar Year Triple Crown would be an adventure of a lifetime. The journey was riddled with inclement weather, shady characters, wildlife attacks, and injuries. Along the way Jeff swam frozen rivers, encountered wildfires and battled his own mind. He offers a captivating story of strength and courage. Hiking through some of the most remote areas in America, Jeff is continually overwhelmed by the kindness and generosity of strangers. Free Outside is the fascinating story of Jeff Garmire's journey along the national historic trails that define wild America. Finishing would take everything he had, and he was willing to give it all.

National Park Roads Timothy Davis 2016-08-19 From Acadia and Great Smoky Mountains to Zion and Mount Rainier, millions of visitors tour America's national parks. While park roads determine what most visitors see and how they see it, however, few pause to consider when, why, or how the roads they travel on were built. In this extensively researched

and richly illustrated book, national parks historian Timothy Davis highlights the unique qualities of park roads, details the factors influencing their design and development, and examines their role in shaping the national park experience--from the Blue Ridge Parkway and Skyline Drive to Glacier National Park's Going-to-the-Sun Road, Yellowstone's Grand Loop, Yosemite's Tioga Road, and scores of other scenic drives. Decisions about park road development epitomize the central challenge of park management: balancing preservation and access in America's most treasured landscapes. Park roads have been celebrated as technical and aesthetic masterpieces, hailed as democratizing influences, and vilified for invading pristine wilderness with the sights, sounds, and smells of civilization. Davis's recounting of efforts to balance the interests of motorists, wilderness advocates, highway engineers, and other stakeholders offers a fresh perspective on national park history while providing insights into evolving ideas about the role of nature, recreation, and technology in American society. Tales of strong personalities, imposing challenges, resounding controversies, and remarkable achievements enliven this rich and compelling narrative. Key players include many of the most important figures of conservation history--John Muir, Frederick Law Olmsted, wilderness advocates Aldo Leopold, Bob Marshall, and Ansel Adams, and NPS directors Stephen Mather and Horace Albright among them. An engrossing history, National Park Roads will be of interest to national park enthusiasts, academics, design professionals, resource managers, and readers concerned with the past, present, and future of this quintessentially American legacy. As the National Park Service celebrates its centennial, this book offers a fascinating and illuminating account of the agency's impact on American lives and landscapes.

A Fine-Spotted Trout on Corral Creek Matthew Dickerson 2021-09-01 Matthew Dickerson's well-crafted prose narrative takes readers from the headwaters of the Colorado River in Wyoming to the Crown of the Continent in Glacier National Park. In the midst of the lovingly described wild and scenic beauty of these places, readers will learn about the science, history, conservation, and restoration of an important native

fish—cutthroat trout—and the habitats where they live, while enjoying stories of the pursuit of those fish with both a fly rod and a camera. The book is well-informed by science as well as careful observation, and conveys both the passion and knowledge of the author. The author, Matthew Dickerson, was a 2017 artist-in-residence at Glacier National Park, invited to that residence specifically to learn and write about cutthroat trout. Much of what he learned and observed is shared in this book, along with stories and knowledge gleaned from times in the national forests of Wyoming and interviews with USGS, U.S. Forest Service, and National Park Service biologists. It is well-informed by science, but doesn't read like a scientific text.

The Blue Ridge Parkway Karen J. Hall 2006 In the late 1890s, the Blue Ridge Parkway was envisioned by many as a great getaway and nature preserve. The concept materialized in the early 20th century, when John D. Rockefeller donated the first \$5 million to begin purchasing land for the project. Located at the top of the great Appalachian ridges, the parkway covers 469 winding miles of mountains and meadows lined with lush wildflowers, old farms, and split-rail fences. Inspiring scenery makes for a journey rich in history and mountain culture.

**Becky's New Car** Steven Dietz 2010 THE STORY: Have you ever been tempted to flee your own life? Becky Foster is caught in middle age, middle management and in a middling marriage--with no prospects for change on the horizon. Then one night a socially inept and grief-struck millionaire

Cuba Clyde Butcher 2005 The United Nations declared the year 2002 as "The Year of the Mountains" and encouraged countries all over the world to have environmental conferences regarding the conservation of mountains. The Conference for the Caribbean and the Americas was held in Cuba, and Clyde Butcher was invited to photograph the mountains of Cuba for the conference. He spent three weeks photographing from the Sierra Maestra of the east coast to the mogote region of the west coast--rain forests, waterfalls, and cliffs that drop off into a perfect ocean. The beauty and majesty of Cuba's natural landscape are captured in his intimate compositions, their focus on shape and light, the horizon and

the sky.
