Outputs and activities of FAO Project FMM/RAS/298/MUL and summary of FAO's recent work on antimicrobial resistance in aquaculture Food and Agriculture Organization of the United Nations 2020-10-01 This report presents the implementation activities and results of the Food and Agriculture Organization of the United Nations (FAO) Project

FMM/RAS/298/MUL: Strengthening capacities, policies, and national action plans on prudent and responsible use of antimicrobials in fisheries. The objectives of this project were to develop and/or enhance the knowledge, skills and capacity of the participating Competent Authorities on fisheries and aquaculture, as well as to assist them in the development and implementation of policies and national action plans (NAPs) on the prudent and responsible use of antimicrobials. The project enhanced the capacities of national Competent Authority (technical specialists, inspection and laboratory staff) to enable productive engagement with other lead agencies (e.g. the World Health Organization [WHO], national agriculture, food safety and animal health authorities), particularly with respect to their aquaculture and fish food safety component contributions to the NAP and the integration of the aquatic sector within the One Health framework. The report also briefly summarizes the recent actions and activities taken by FAO related to AMR in aquaculture since the completion of this project, including awareness raising targeting policymakers and aquaculture stakeholders, relevant publications, candidate reference centers and other ongoing projects to date.

Proceedings NASA-University Conference on Manual Control 1966 **Survey of the Academic Library Role in Course Management Systems** Primary Research Group 2013 The study looks closely at how academic libraries present themselves in the course management system, and the role that they play in developing it and training faculty and students to use it. The report gives detailed data on library staff time devoted to the course management system, the role the library plays in information literacy regarding the course management system, the degree to which libraries offer courses through the CMS, and the degree to which library resources such as course reserves, LibGuides and other subject and course guides, inter-library loan requests, and other library services are integrated into the CMS. Data is broken out by size and type of academic library

and for different CMS systems.
Tintinalli's Emergency Medicine: A Comprehensive Study Guide, 8th edition Judith E. Tintinalli 2016-03-22 The most widely used and highly regarded textbook and reference of emergency medicine -- Endorsed by the American College of Emergency Physicians The 8th edition of Tintinalli's Emergency Medicine provides the depth and breadth of coverage that reflects the complexity and expertise needed to practice emergency medicine successfully in today's fast–paced environments. It is an important contemporary clinical emergency care resource for physicians, NPs, and PAs who practice emergency medicine and for emergency medicine and pediatric emergency medicine fellows. It remains the preferred study guide for in-training and board examinations and recertification. NEW to this edition: • Full-color design with more tables than ever to succinctly present key information • Extensive updates to all sections, incorporating the latest guidelines, evidence-based protocols, and relevant research • Expanded pediatric section, with complete clinical information for general and pediatric emergency physicians • Expanded coverage of common emergency department procedures, with improved illustrations • Online access to more than 30 videos, covering a wide range of procedural and diagnostic topics and focusing on the latest ultrasound-guided techniques From the reviews of the seventh edition: "Collectively, they have once again produced an excellent text that manages to cover the broad scope of emergency medicine while remaining an easily readable and practical resource....Last, for the inevitable

comparison of this current edition of Tintinalli's Emergency Medicine with other available emergency medicine textbooks available: in my opinion, Tintinalli's still comes out on top. It is more concise and easier to read than some, yet it covers the breadth of emergency medicine practice more comprehensively than others....Just as previous editions did, the seventh presents all of the most pertinent and up-to-date information in a well-organized format that is comprehensive yet easy to read. That and many of the attractive new features in this current edition will ensure its place on my bookshelf for years to come."—JAMA

A Treatment Manual for Adolescents Displaying Harmful Sexual Behaviour Eamon McCrory 2010-12-15 A Treatment Manual for Adolescents Displaying Harmful Sexual Behaviour is a resource for clinicians working therapeutically with male adolescents who have shown harmful sexual behaviour (HSB). Comprised of a printed manual and with accompanying online downloadable material, it is designed to be delivered over 30 sessions across 4 modules, but can be adapted to suit the needs of individual adolescents. The four modules address a range of clinical tasks, including: establishing rapport and a therapeutic alliance with the young

person; developing the relationship skills of the young person and addressing their harmful sexual behaviour; the young person's feelings, thoughts and beliefs and developing their capacity to regulate emotions and sexual arousal; and issues of sexuality, dating, endings and relapse prevention. The printed manual outlines the background that any clinician delivering treatment needs to consider, including a description of key therapeutic techniques, practical advice on how to prepare for and deliver an intervention, overviews of the modules and sessions, and sample session plans. Each session plan is clearly written in a step-by-step format and is stored electronically online so they can be easily printed as often as required. The accompanying online downloadable material also contains 'Home Project' sheets (homework tasks to consolidate the in-session therapeutic work) as well as a specially commissioned 'Character Library' with cut-out figures and background scenes that can be used as tools for the young person to explore real and fictional scenarios. This professional resource aims to provide the clinician with the tools to address adolescent harmful sexual behaviour within a broader social and emotional developmental context, and will aid those working with young people to motivate them to engage in a positive process of change.

Too many influences took her away from the actual teaching of children. Gabriele turned to graduate school to seek answers to the problems in public education. In New Hope for Schools, she shares the results of her studies and the creation of a system that works for education. Gabriele discusses her experiences as a teacher and teacher turned detective looking for answers in her teaching

experience and postcareer graduate school. She then reveals a breakthrough theory to demystify the behavior of people in schools, gleaned out of Boulding's Typology of System Complexity. As a result, she created the RoundTable, a practice designed to be an effective new tool for schools and classrooms, as well as a seed for systemic renewal. She also provides a three-pronged solution for unshackling and revitalizing schools and workplaces. New Hope for Schools presents new theory, new practice, and a user-friendly solution for systemic school renewal. It offers compelling new insights and solutions for all school decision makers-from educators, to parents, students, educational scholars, researchers, and policy makers. "A powerful way to learn ...the RoundTable provides a kind of learning experience that makes a real contribution to the community as a whole..." -SUSAN McCORMICK, Polson School District Superintendent, Polson, Montana; School Improvement Consultant, Montana Office of Public Instruction, Helena, Montana

Teaching Parents to be the Primary Sexuality Educators of Their Children: Guide to designing and implementing multisession courses Judith S. Alter 1982 *Culturally Informed Therapy for Schizophrenia* Amy Weisman de Mamani 2021 "This book is primarily designed for clinicians and researchers interested in learning how to conduct an empirically supported, Culturally Informed Therapy for Schizophrenia (CIT-S) that integrates core components of evidenced based family therapy. It is estimated that approximately one percent of adults in the United

States will be diagnosed with schizophrenia or a related schizophrenia spectrum disorder (SSD). Without treatment, prognosis is generally poor. Fortunately, traditional family therapies have shown increasing promise in reducing relapse rates and improving mental health for this population. As more and more societies become multicultural, however, there is an increasing expectation that mental health providers will also be prepared to meet the needs of unique and culturally diverse clients in an efficient, skillful, and culturally relevant manner. CIT-S is a 15-week, family-focused, cognitive behavioral approach for managing schizophrenia spectrum disorders. The intervention draws upon clients' cultural beliefs, practices, and traditions to help them conceptualize and manage mental illness. It aims to improve the quality of clients' lives in a manner that is in line with their values and takes into account their cultural norms when discussing important issues and addressing challenges (such as mental illness) within the family. CIT-S contains five distinct modules: 1) Family Collectivism 2) Psychoeducation 3) Spirituality 4) Communication Training and 5) Problem Solving. For each module, a detailed rationale, background information, therapy instructions, suggested homework assignments, and a sample case vignette is provided in an accessible, easy-to-use, manner"--
