Times bestselling authors Orson Scott Card and Aaron Johnston return to the prequels to Ender's Game following The Swarm with The Hive, book two in the Second Formic War. Card and Johnston continue the fast-paced hard science fiction history of the Formic Wars—the alien invasions of Earth's Solar System that ultimately led to Ender Wiggin's total victory in Ender's Game. A coalition of Earth's nations barely fought off the Formics' first scout ship. Now it's clear that there's a mother-ship out on edge of the system, and the aliens are prepared to take Earth by force. Can Earth's warring nations and corporations put aside their differences and mount an effective defense? Ender's Game is one of the most popular and bestselling science fiction novels of all

time. The Formic War series (The First Formic War and The Second Formic War) are the prequels to Ender's story. The Swarm Orson Scott Card 2016-08-02 Orson Scott Card and Aaron Johnston return to their Ender's Game prequel series with this first volume of an all-new trilogy about the Second Formic War in *The Swarm*. The first invasion of Earth was beaten back by a coalition of corporate and international military forces, and the Chinese army. China has been devastated by the Formic's initial efforts to eradicate Earth life forms and prepare the ground for their own settlement. such damage was merely a scout ship. There is a mothership out beyond the Solar System's Kuiper Belt, and it's heading into the system, unstoppable by any weapons that Earth can muster. Collings 2002-02 The first volume documenting and collecting Orson Scott Card's work for the last 30 years. Every novel, story, poem, every word that has been published--and then some is in this collection. This is a must for any reader, who wants to learn everything about this author's extensive work and career.

Ender's Shadow Orson Scott Card 2002-05-19 Orson Scott Card brings us back to the very beginning of his brilliant Ender Quartet, with the novel that begins The Shadow Series and allows us to reenter Ender's world anew. With all the power of his original creation, Ender's Shadow is Card's parallel volume to Ender's Game, a book that expands and complements the first, enhancing its power, illuminating its events and its powerful

conclusion. The human race is at War with the "Buggers", an insect-like alien race. The first battles went badly, and now as Earth prepares to defend itself against the imminent threat of total destruction at the hands of an inscrutable alien enemy, all focus is on the development and training of military geniuses who can fight such a war, and win. The long distances of interstellar space have given hope to the defenders of Earth--they have time to train these future commanders up from childhood, forging then into an irresistible force in the high orbital facility called the Battle School. Andrew "Ender" Wiggin was not the only child in the Battle School; he was just the best of the best. In this new book, card tells the story of

another of those precocious generals, the one they called Bean-- the one who became Ender's right hand, part of his team, in the final battle against the Buggers. Bean's past was a battle just to survive. He first appeared on the streets of Rotterdam, a tiny child with a mind leagues beyond anyone else's. He knew he could not survive through strength; he used his tactical genius to gain acceptance into a children's gang, and then to help make that gang a template for success for all the others. He civilized them, and lived to grow older. Bean's desperate struggle to live, and his success, brought him to the attention of the Battle School's recruiters, those people scouring the planet for leaders, tacticians, and generals to save Earth

from the threat of alien invasion. Bean was sent into orbit, to the Battle School. And there he met Ender.... Shadows in Flight Orson Scott Card 2013-01-29 Ender's Shadow explores the stars in this all-new novel... At the end of Shadow of the Giant, Bean flees to the stars with three of his children--the three who share the engineered genes that gave him both hyper-intelligence and a short, cruel physical life. The time dilation granted by the speed of their travel gives Earth's scientists generations to seek a cure, to no avail. In time, they are forgotten--a fading ansible signal speaking of events lost to Earth's history. But the Delphikis are about to make a discovery that will let them save themselves, and perhaps all of humanity.

The First Formic War

Orson Scott Card
2017-02-14 This discounted ebundle includes The First Formic War Trilogy by bestselling authors Orson Scott Card and Aaron Johnston: Earth Unaware, Earth Afire, Earth Awakens One hundred years before Ender Wiggin decisively defeated the alien formics in Ender's Game. A pulse-pounding tale of first contact gone horribly wrong. Ender's Game opens in the last

desperate days of Earth's war against the implacable insectoid aliens. We are told early on that the Battle School is training generals for the Third Formic War – the war that will end the war; will save the Earth; will finally defeat the Buggers. This is the story of the First Formic Wars, back when humans thought they were alone in the galaxy. Humanity was slowly making their way out from Earth to the planets and asteroids of the Solar System, exploring and mining and founding colonies. Then a ship's telescopes pick up a fast-moving object coming in-system... Earth Unaware – When mining ship El Cavador's telescopes pick up a fast-moving object coming in-system, it's hard to know what to make of it. It's massive and moving at

significant fraction of the speed of light. But the ship has other problems. Their systems are old and failing. Worrying about a distant object that might or might not be an alien ship seems...not important. Earth Afire – Victor Delgado beat the alien ship to Earth, but not soon enough to convince skeptical governments that there was a threat. That is, until space stations and ships and colonies went up in sudden flame. And when that happened, only Mazer Rackham and the Mobile Operations Police could organize in time to meet the threat. Earth Awakens – Politics slowed the response on Earth, and on Luna, corporate power struggles seemed more urgent than distant deaths. It's up to Mazer Rackham's squad in China, who have developed a method to

destroy the alien landers one by one; and Lem Jukes and his crew on the Moon, who may have the key to destroying the Formic mother ship in orbit. On Lusitania, Ender found a world where humans and pequininos and the Hive Queen could all live together; where three very different intelligent species could find common ground at last. Or so he thought. Lusitania also harbors the descolada, a virus that kills all humans it infects, but which the pequininos require in order to become adults. The Starways Congress so fears the effects of the descolada, should it escape from Lusitania, that they have ordered the destruction of the entire planet, and all who live there. Ender's Game Orson Scott Card 2010-04-01 Orson Scott Card's *Ender's Game* is the winner of the Nebula and Hugo Awards In order to develop a secure defense against a hostile alien race's next attack, government agencies breed child geniuses and train them as soldiers. A brilliant young boy, Andrew "Ender" Wiggin lives with his kind but distant parents, his sadistic brother Peter, and the person he loves more than anyone else, his sister Valentine. Peter and Valentine were candidates for the soldier-training program but didn't make the cut—young Ender is the Wiggin drafted to the orbiting Battle School for rigorous military training. Ender's skills make him a leader in school and respected in the Battle Room, where children play ~~at~~ ~~back~~ from

battles in zero gravity. Yet growing up in an artificial community of young soldiers Ender suffers greatly from isolation, rivalry from his peers, pressure from the adult teachers, and an unsettling fear of the alien invaders. His psychological battles include loneliness, fear that he is becoming like the cruel brother he remembers, and fanning the flames of devotion to his beloved sister. Is Ender the general Earth needs? But Ender is not the only result of the genetic experiments. The war with the Buggers has been raging for a hundred years, and the quest for the perfect general has been underway for almost as long. Ender's two older siblings are every bit as unusual as he is, but in very different ways. Between the three of them lie the abilities

to remake a world. If, that is, the world survives. Ender's Game is the winner of the 1985 Nebula Award for Best Novel and the 1986 Hugo Award for Best Novel. Earth Awakens Orson
Scott Card 2014-06-10

The story of The First Formic War continues in Earth Awakens. Nearly 100 years before the events of Orson Scott Card's bestselling novel Ender's Game, humans were just beginning to step off Earth and out into the Solar System. A thin web of ships in both asteroid belts; a few stations; a corporate settlement on Luna. No one had seen any sign of other space-faring races; everyone expected that First Contact, if it came, would happen in the future, in the empty reaches between the stars. Then a young navigator on a distant mining ship saw something moving too

fast, heading directly for our sun. When the alien ship screamed through the solar system, it disrupted communications between the far-flung human mining ships and supply stations, and between them and Earth. So Earth and Luna were unaware that they had been invaded until the ship pulled into Earth orbit, and began landing terraforming crews in China. Politics and pride slowed the response on Earth, and on Luna, corporate power struggles seemed more urgent than distant deaths. But there are a few men and women who see that if Earth doesn't wake up and pull together, the planet could be lost. Earth Unaware Orson Scott Card 2012-07-17 A hundred years before Ender's Game, humans thought they were alone in the galaxy. Humanity was slowly making their way out from Earth to the planets and asteroids of the Solar System, exploring and mining and founding colonies. The mining ship El Cavador is far out from Earth, in the deeps of the Kuiper Belt, beyond Pluto. Other mining ships, and the families that live on them, are few and far between this far out. So when El Cavador's

telescopes pick up a fast-moving object coming in-system, it's hard to know what to make of it. It's massive and moving at a significant fraction of the speed of light. But the ship has other problems. Their systems are old and failing. The family is getting too big. There are claim-jumping corporates bringing Asteroid Belt tactics to the Kuiper Belt. Worrying about a distant object that might or might not be an alien ship seems...not important. They're wrong. It's the most important thing that has happened to the human race in a million years. This is humanity's first contact with an alien race. The First Formic War is about to begin. Earth Unaware is the first novel in The First Formic War series by Orson Scott Card and Aaron Johnston.

Enchantment Orson Scott Card 2005-05-31 In Enchantment, Orson Scott Card works his magic as never before, transforming the timeless story of Sleeping Beauty into an

original fantasy brimming with romance and adventure. The moment Ivan stumbled upon a clearing in the dense Carpathian forest, his life was forever changed. Atop a pedestal encircled by fallen leaves, the beautiful princess Katerina lay still as death. But beneath the foliage a malevolent presence stirred and sent the ten-year-old Ivan scrambling for the safety of Cousin Marek's farm. Now, years later, Ivan is an American graduate student, engaged to be married. Yet he cannot forget that long-ago day in the forest—or convince himself it was merely a frightened boy's fantasy. Compelled to return to his native land, Ivan finds the clearing just as he left it. This time he does not run. This time he awakens the beauty with

a kiss . . . and steps into a world that vanished a thousand years ago. A rich tapestry of clashing worlds and cultures, *Enchantment* is a powerfully original novel of a love and destiny that transcend centuries . . . and the dark force that stalks them across the ages.

Invasive Procedures Orson Scott Card 2009-11-30 Orson Scott Card and Aaron Johnston's taut thriller *Invasive Procedures* takes readers a few

years into the future, and shows the promise and danger of new genetic medicine techniques. George Galen is a brilliant scientist, a pioneer in gene therapy. But Galen is dangerously insane – he has created a method to alter human DNA, not just to heal diseases, but to "improve" people – make them stronger, make them able to heal more quickly, and make them compliant to his will. Frank Hartman is also a brilliant virologist, working for the government's ultra-secret bio-hazard agency. He has discovered how to neutralize Galen's DNA-changing virus, making him the one man who stands in the way of Galen's plan to "improve" the entire human race. Earth Afire Orson Scott Card 2014-04-29 One

hundred years before Ender's Game, the aliens arrived on Earth with fire and death. This is the story of the First Formic War. Victor Delgado beat the alien ship to Earth, but just barely. Not soon enough to convince skeptical governments that there was a threat. They didn't believe that until space stations and ships and colonies went up in sudden flame. And when that happened, only Mazer Rackham and the Mobile Operations Police could move fast enough to meet the threat. Fans of Ender's Game will thrill to Orson Scott Card and Aaron Johnston's Earth Afire.
