Mapping the Terrain of Learner

Autonomy Felicity Kjisik 2009

"Mapping the terrain of learner autonomy, written by leading researchers and teachers in the field of language learner autonomy, draws a concise map of the main developments in the field, which has expanded enormously in the past decade. It provides an analysis of the current state of learner autonomy practices, presents some concrete examples, addresses issues of teacher, advisor and counsellor development, and suggests future directions both in pedagogical practice and research. The book will be a useful textbook or reader for advanced students in foreign language education, applied linguistics and teacher education as well as for experienced language teachers who wish to update their knowledge in the field of learner autonomy."--Back cover.

Beyond Foucault: Excursions in Political Genealogy Michael Clifford 2018 Trump and Trumpism, 21st century warfare, chronic illness,

intellectual property: These are just some of the issues examined here. Inspired by the work of Michel Foucault, this book includes articles from scholars employing political genealogy as a methodology and model of theoretical inquiry representing a wide range of disciplines, from the social sciences to the humanities, from philosophy to medicine, to economics, to political and cultural theory. Featuring some of the best and most current work in political genealogy, this work invites us to rethink many of the key concepts in political theory as well as cultural types of expression that we do not routinely think of as political, such as dance, romantic movies, and literature. Broadly conceived, this volume contains essays-excursions, explorations, experimentations-into how political genealogy helps us to understand what Foucault calls "the history of our present," while at the same time looking to our future, to what being a political subject will look like in the 21st century.

Duke Ellington and His World A. H. Lawrence 2004-03-01 Based on lengthy interviews with Ellington's

bandmates, family, and friends, Duke Ellington and His World offers a fresh look at this legendary composer. The first biography of the composer written by a fellow musician and African-American, the book traces Ellington's life and career in terms of the social, cultural, political, and economic realities of his times. Beginning with his birth in Washington, DC, through his first bands and work at the legendary Cotton Club, to his final great extended compositions, this book gives a thorough introduction to Ellington's music and how it was made. It also illuminates his personal life because, for Ellington, music was his life and his life was a constant inspiration for music.

Narratives from Beyond the UK Reggae

Bassline William 'Lez' Henry
2020-11-25 This book explores the history of reggae in modern Britain from the time it emerged as a cultural force in the 1970s. As basslines from Jamaica reverberated across the Atlantic, so they were received and transmitted by the UK's Afro-Caribbean community. From roots to lovers' rock, from deejays harnessing the dancehall crowd to dub poets reporting back from the socio-economic front line, British reggae soundtracked the inner-city experience of black youth. In time, reggae's influence permeated the wider culture, informing the sounds and the language of popular music whilst also retaining a connection to the street-level sound systems, clubs and centres that provided space to create, protest and innovate. This book is therefore a testament to struggle and ingenuity, a collection of essays tracing reggae's importance to both the culture and the politics of late twentieth and early twenty-first century Britain.

Making Hip Hop Theatre Katie Beswick
2022-02-24 Making Hip Hop Theatre is

the essential, practical guide to making hip-hop theatre. It features detailed techniques and exercises that can guide creatives from workshops through to staging a performance. If you were inspired by Hamilton, Barber Shop Chronicles, Misty, Black Men Walking or Frankenstein: How to Make a Monster, this is the book for you. Covering vocal technique, use of equipment, mixing, looping, sampling, working with venues and dealing with creative challenges, this book is a bible for both new and experienced artists alike. Additionally, with links to online video material demonstrating and elaborating on the exercises included, it offers countless useful tools for teachers and facilitators of drama, music and other creative arts. Alongside this practical guidance is an overview of hip hop history, giving theoretical and historical context for the practice. From documentation of Conrad Murray's major productions, to commentary from leading practitioners including Lakeisha Lynch-Stevens, David Jubb, Emma Rice, Tobi Kyeremateng and Paula Varjack, readers are treated to a detailed insight into the background of hip hop theatre. Edited by scholar Katie Beswick and genre pioneer Conrad Murray, Making Hip Hop Theatre is a vital teaching tool and provides a much-needed account of a burgeoning aspect of contemporary theatre culture.

Modern Ballroom Dancing Victor Silvester 2013-04-16 Many of the earliest books, particularly those

dating back to the 1900s and before, are now extremely scarce and increasingly expensive. We are republishing these classic works in affordable, high quality, modern editions, using the original text and artwork.

Naming Edmonton City of Edmonton 2004-07-15 With over 1300 sites, 300 photographs, and detailed maps, *Naming Edmonton* gives life to the personal stories and the significant events that mark this city. Use this comprehensive local history as a guide to revisit Edmonton's streets, parks, neighbourhoods, and bridges in an exploration of the signs of our origins and our times.

Extended Play John Corbett 1994 In *Extended Play*, one of the country's most innovative music writers conducts a wide-ranging tour through the outer limits of contemporary music. Over the course of more than twenty-five portraits, interviews, and essays, John Corbett engages artists from lands as distant as Sweden, Siberia, and Saturn. With a special emphasis on African American and European improvisers, the book explores the famous and the little known, from John Cage and George Clinton to Anthony Braxton and Sun Ra. Employing approaches as diverse as the music he celebrates, Corbett illuminates the sound and theory of funk and rap, blues and jazz, contemporary classical, free improvisation, rock, and reggae. Using cultural critique and textual theory, Corbett addresses a broad spectrum of issues, such as the status of recorded music in postmodern culture, the politics of self-censorship, experimentation, and alternativism in the music industry, and the use of metaphors of space and madness in the work of African American musicians. He follows these more theoretically oriented essays with a series of extensive profiles

and in-depth interviews that offer contrasting and complementary perspectives on some of the world's most creative musicians and their work. Included here are more than twenty original photographs as well as a meticulously annotated discography. The result is one of the most thoughtful, and most entertaining, investigations of contemporary music available today.

Bill Wyman's [blues Odyssey] Bill Wyman 2001 A history of the Blues genre and its celebrated musicians discusses how African-Americans expressed poverty, injustice, faith, and love in their music as they journeyed from southern plantations to northern cities.

Bibliographic Guide to Music New York Public Library. Music Division 1977
Speculative Blackness André M. Carrington 2016-02-29 In *Speculative Blackness*, André M. Carrington analyzes the highly racialized genre of speculative fiction—including science fiction, fantasy, and utopian works, along with their fan cultures—to illustrate the relationship between genre conventions in media and the meanings ascribed to blackness in the popular imagination. Carrington's argument about authorship, fandom, and race in a genre that has been both marginalized and celebrated offers a black perspective on iconic works of science fiction. He examines the career of actor Nichelle Nichols, who portrayed the character Uhura in the original *Star Trek* television series and later became a recruiter for NASA, and the spin-off series *Star Trek: Deep Space Nine*, set on a space station commanded by a black captain.

He recovers a pivotal but overlooked moment in 1950s science fiction fandom in which readers and writers of fanzines confronted issues of race by dealing with a fictitious black fan writer and questioning the relevance of race to his ostensible contributions to the 'zines.

Carrington mines the productions of Marvel comics and the black-owned comics publisher Milestone Media, particularly the representations of black sexuality in its flagship title, *Icon*. He also interrogates online fan fiction about black British women in *Buffy the Vampire Slayer* and the *Harry Potter* series. Throughout this nuanced analysis, Carrington theorizes the relationship between race and genre in cultural production, revealing new understandings of the significance of blackness in twentieth-century American literature and culture.

The History of Musical Instruments

Curt Sachs 2012-09-19 Written by a distinguished musicologist, this comprehensive history of musical instruments traces their evolution from prehistoric times in a fusion of music, anthropology, and fine arts. Includes 24 plates and 167 illustrations.

Encyclopedia of Gangs Louis Kontos 2008 Examines gangs throughout the United States in over eighty entries covering topics such as history, the wide range of communities where gangs form, and their increasingly complex lifestyle.

How To Become A Good Dancer Arthur Murray 2013-04-16 This early work by Arthur Murray is both expensive and hard to find in its first edition. Its 250 pages contain a wealth of information on how to learn the art of dancing and include chapters on the Fox Trot, the Rumba the Mambo, all accompanied by instructional diagrams. This fascinating work is thoroughly recommended for anyone

with an interest in ballroom dancing and a willingness to learn. Many of the earliest books, particularly those dating back to the 1900s and before, are now extremely scarce. We are republishing these classic works in affordable, high quality, modern editions, using the original text and artwork.

Language, Music, and the Brain

Michael A. Arbib 2013-06-28 A presentation of music and language within an integrative, embodied perspective of brain mechanisms for action, emotion, and social coordination. This book explores the relationships between language, music, and the brain by pursuing four key themes and the crosstalk among them: song and dance as a bridge between music and language; multiple levels of structure from brain to behavior to culture; the semantics of internal and external worlds and the role of emotion; and the evolution and development of language. The book offers specially commissioned expositions of current research accessible both to experts across disciplines and to non-experts. These chapters provide the background for reports by groups of specialists that chart current controversies and future directions of research on each theme. The book looks beyond mere auditory experience, probing the embodiment that links speech to gesture and music to dance. The study of the brains of monkeys and songbirds illuminates hypotheses on the evolution of brain mechanisms that support music and language, while the study of infants calibrates the developmental timetable of their capacities. The result is a unique book that will interest any reader seeking to learn more about language or music and will appeal especially to readers intrigued by the relationships of language and music with each other and with the brain.

Reinventing the Wheel Peter D. Hershock 1999-07-23 Suggests that certain Buddhist notions may act as an antidote to the adverse effects of high-tech media.

Spontaneous Shrines and the Public Memorialization of Death J. Santino 2016-04-30 This is an edited volume of approximately 17 essays that deal with various types of spontaneous shrines and other, related public memorializations of death. The articles address events such as New York after 9/11; roadside crosses, and the use of 'Day of the Dead' altars to bring attention to deceased undocumented immigrants.

The Complete Pianist Penelope Roskell 2020 "Roskell's new and unique approach to piano playing is based on the use of natural, ergonomic movement, which helps both health and technique. Includes music examples, exercises, and access to more than 300 online video demonstrations. With an introduction and appendices"-- Publisher's description

Coda Magazine 1997

German Operetta on Broadway and in the West End, 1900-1940 Derek B. Scott 2022-06-23 Academic attention

has focused on America's influence on European stage works, and yet dozens of operettas from Austria and Germany were produced on Broadway and in the West End, and their impact on the musical life of the early twentieth century is undeniable. In this groundbreaking book, Derek B. Scott examines the cultural transfer of operetta from the German stage to Britain and the USA and offers a historical and critical survey of these operettas and their music. In the period 1900-1940, over sixty operettas were produced in the West End, and over seventy on Broadway. A study of these stage works is important for the light they shine on a variety of social topics of the period - from modernity and gender relations to new technology and new media - and these are investigated in the individual chapters. This book is also available as Open Access on Cambridge Core.

Going to the Palais James Nott 2015 From the mid-1920s, the dance hall occupied a pivotal place in the culture of working- and lower-middle-class communities in Britain - a place rivalled only by the cinema and eventually to eclipse even that institution in popularity. *Going to the Palais* examines the history of this vital social and cultural institution, exploring the dances, dancers, and dance venues that were at the heart of one of twentieth-century Britain's most significant leisure activities. From the Charleston to the Twist, *Going to the Palais* provides a lively and vivid account of dancing and its interaction with race, gender, class, and national identity in Britain from 1918 to 1960. In doing so it plugs a significant gap in our understanding of twentieth-century British social and cultural history.

Parodies of Ownership Richard L Schur 2011-02-10 "Richard Schur offers a

provocative view of contemporary African American cultural politics and the relationship between African American cultural production and intellectual property law." ---Mark Anthony Neal, Duke University "Whites used to own blacks. Now, they accomplish much the same thing by insisting that they 'own' ownership. Blacks shouldn't let them. A culture that makes all artists play by its rules will end up controlling new ideas and stifling change. Richard Schur's fine book explains why." ---Richard Delgado, Seattle University

What is the relationship between hip-hop and African American culture in the post--Civil Rights era? Does hip-hop share a criticism of American culture or stand as an isolated and unique phenomenon? How have African American texts responded to the increasing role intellectual property law plays in regulating images, sounds, words, and logos? *Parodies of Ownership* examines how contemporary African American writers, artists, and musicians have developed an artistic form that Schur terms "hip-hop aesthetics." This book offers an in-depth examination of a wide range of contemporary African American painters and writers, including Anna Deavere Smith, Toni Morrison, Adrian Piper, Colson Whitehead, Michael Ray Charles, Alice Randall, and Fred Wilson. Their absence from conversations about African American culture has caused a misunderstanding about the nature of contemporary cultural issues and resulted in neglect of their innovative responses to the post--Civil Rights era. By considering their work as a cross-disciplinary and specifically African American cultural movement, Schur shows how a new paradigm for artistic creation has developed. *Parodies of Ownership* offers a broad analysis of post--Civil Rights era culture and provides the necessary context for

understanding contemporary debates within American studies, African American studies, intellectual property law, African American literature, art history, and hip-hop studies. Weaving together law, literature, art, and music, Schur deftly clarifies the conceptual issues that unify contemporary African American culture, empowering this generation of artists, writers, and musicians to criticize how racism continues to affect our country. Richard L. Schur is Director, Interdisciplinary Studies Center, and Associate Professor of Interdisciplinary Studies at Drury University. Visit the author's website:

Keys to Play Roger Moseley 2016-10-28

A free ebook version of this title is available through Luminos, University of California Press's Open Access publishing program for monographs. Visit www.luminosoa.org to learn more. How do keyboards make music playable? Drawing on theories of media, systems, and cultural techniques, *Keys to Play* spans Greek myth and contemporary Japanese digital games to chart a genealogy of musical play and its animation via improvisation, performance, and recreation. As a paradigmatic digital interface, the keyboard forms a field of play on which the book's diverse objects of inquiry—from clavichords to PCs and eighteenth-century musical dice games to the latest rhythm-action titles—enter into analogical relations. Remapping the keyboard's topography by way of Mozart and Super Mario, who head an expansive cast of historical and virtual actors, *Keys to Play* invites readers to unlock ludic dimensions of music that are at once old and new.

On hard core pornographic cinema.

Bartholomew Fair Ben Jonson 1904

Industry Recipes J.-C. Spender 1989-01-01

Racism in America Harvard University Press 2020-08-06 Racism in America has been the subject of serious scholarship for decades. At Harvard University Press, we've had the honor of publishing some of the most influential books on the subject. The excerpts in this volume—culled from works of history, law, sociology, medicine, economics, critical theory, philosophy, art, and literature—are an invitation to understand anti-Black racism through the eyes of our most incisive commentators. Readers will find such classic selections as Toni Morrison's description of the Africanist presence in the White American literary imagination, Walter Johnson's depiction of the nation's

largest slave market, and Stuart Hall's theorization of the relationship between race and nationhood. More recent voices include Khalil Gibran Muhammad on the pernicious myth of Black criminality, Elizabeth Hinton on the link between mass incarceration and 1960s social welfare programs, Anthony Abraham Jack on how elite institutions continue to fail first-generation college students, Mehrsa Baradaran on the racial wealth gap, Nicole Fleetwood on carceral art, and Joshua Bennett on the anti-Black bias implicit in how we talk about animals and the environment. Because the experiences of non-White people are integral to the history of racism and often bound up in the story of Black Americans, we have included writers who focus on the struggles of Native Americans, Latinos, and Asians as well. Racism in America is for all curious readers, teachers, and students who wish to discover for themselves the complex and rewarding intellectual work that has sustained our national conversation on race and will continue to guide us in future years.

The Official Dictionary of Unofficial English Grant Barrett 2010-06-14 The words come from different countries where English is spoken, such as the United States, the United Kingdom, Hong Kong, South Africa, and others. The author's website has received more than 1.2 million hits since its launch in 2004, and he is frequently interviewed about language in publications such as the New York Times

Race Rebels Robin Kelley 1996-06-01 Many black strategies of daily resistance have been obscured--until now. Race rebels, argues Kelley, have created strategies of resistance, movements, and entire subcultures. Here, for the first time, everyday race rebels are given the

historiographical attention they deserve, from the Jim Crow era to the present.

Murder at the Sleepy Lagoon Eduardo Obregon Pagan 2004-07-21 The notorious 1942 "Sleepy Lagoon" murder trial in Los Angeles concluded with the conviction of seventeen young Mexican American men for the alleged gang slaying of fellow youth Jose Diaz. Just five months later, the so-called Zoot Suit Riot erupted, as white soldiers in the city attacked minority youths and burned their distinctive zoot suits. Eduardo Obregon Pagan here provides the first comprehensive social history of both the trial and the riot and argues that they resulted from a volatile mix of racial and social tensions that had long been simmering. In reconstructing the lives of the murder victim and those accused of the crime, Pagan contends that neither the convictions (which were based on little hard evidence) nor the ensuing riot arose simply from anti-Mexican sentiment. He demonstrates instead that a variety of pre-existing stresses, including demographic pressures, anxiety about nascent youth culture, and the war effort all contributed to the social tension and the eruption of violence. Moreover, he recovers a multidimensional picture of Los Angeles during World War II that incorporates the complex intersections of music, fashion, violence, race relations, and neighborhood activism. Drawing upon overlooked evidence, Pagan concludes by reconstructing the murder scene and proposes a compelling theory about what really happened the night of the murder.

Whiteness Steve Garner 2007-08-03 What is whiteness? Why is it worth using as a tool in the social sciences? Making sociological sense of the idea of whiteness, this book

skilfully argues how this concept can help us understand contemporary societies. If one of sociology's objectives is to make the familiar unfamiliar in order to gain heightened understanding, then whiteness offers a perfect opportunity to do so. Leaning firstly on the North American corpus, this key book critically engages with writings on the formation of white identities in Britain, Ireland and the Americas, using multidisciplinary sources. Empirical work done in the UK, including the author's own, is developed in order to suggest how whiteness functions in Britain. Bringing an emphasis on empirical work to a heavily theorized area, this important text synthesizes and reviews existing work, incorporates multidisciplinary sources of interest to those outside the sociology sphere, and features concise chapters which will engage undergraduates. Garner deftly argues that whiteness is a multifaceted, contingent and fluid identity, and that it must be incorporated into any contemporary understandings of racism as a system of power relationships in both its local and global forms.

Broken Music Sting 2009-10-14

“Sting’s gift for prose and reverence

for language, nearly the equal of his musical gifts, shine on every page. Even when *Broken Music* addresses the quixotic life of an aspiring rock & roller, it reads like literature from a more rarified time when adults didn’t condescend to the vulgarities of pop culture.” –Rolling Stone

Having been a songwriter most of my life, condensing my ideas and emotions into short rhyming couplets and setting them to music, I had never really considered writing a book. But upon arriving at the reflective age of fifty, I found myself drawn, for the first time, to write long passages that were as stimulating and intriguing to me as any songwriting I had ever done. And so *Broken Music* began to take shape. It is a book about the early part of my life, from childhood through adolescence, right up to the eve of my success with the Police. It is a story very few people know. I had no interest in writing a traditional autobiographical recitation of everything that’s ever happened to me. Instead I found myself drawn to exploring specific moments, certain people and relationships, and particular events which still resonate powerfully for me as I try to understand the child I was, and the man I became.
