Russian Motor Vehicles Maurice A. Kelly 2011-04-15 A book concerning Russian Limousines, and the Chinese models that were initially derived from them, has never been attempted before. This book investigates the whole story of why the Soviet Communist Party required such a bourgeois product, and how production was subsequently achieved. Following the orders of Stalin, work on the Limousines commenced during the first Five Year Plan (1927-1933) at the Putilov Works, late the Kirov Zavod, where the Leningrad L-1 was made in a limited number. From these beginnings, the Moscow and Gorky models emerged, and later the Chinese-derived types made with Russian aid during the late 1950s. Covering all of these models, up to the last one produced in 2003, and featuring full specifications translated from the relevant primary sources in Russian and Chinese literature, this is a meticulous and unique account of a previously neglected subject.

The Competition Car Data Logging Manual Graham Templeman 2008 At last. A practical handbook on how to choose and operate datalogging equipment and get the full benefit from what it tells you. Aimed at the amateur competitor, it covers hardware and software and takes over where the manufacturers instructions run out. It shows how to understand what the data is telling you and how to use it to go faster. It covers standard information screens and shows you how to create your own charts and tables that will illuminate the performance of both the car, the driver and the team. On the way, it deals with systems management issues, how to get the quick and easy payoffs, and how to benefit in the long term. It explains how sensors work, how to fit them so they survive and to calibrate them. The final chapter is a Field Guide designed to help you run the system, trouble-shoot hardware and software problems and quickly interpret the output of the graphs under pressure during an event.

BRM V16 Karl Ludvigsen 2007-02 There was a vast difference between the BRM and any other car I'd yet driven. When I opened the throttle, even at high speeds in top gear, the whole thing shuddered with a frightening surge of power. It could spin its wheels effortlessly at speeds equal to many other cars' maximum. It was doing 187 on the straight at Monza, which was too quick for a car that didn't handle. If you let the revs drop much below 9000 the car just wouldn't go at all." Sir Stirling Moss.

Motor Racing at Oulton Park in the 1960s Peter McFadyen 2007-02-01 Oulton Park in the late 1960s was one of the last circuits to play host to non-championship Formula 1 races. Set in beautiful Cheshire parkland, it has always been a favorite with drivers who relish its challenging curves and with spectators who could watch their heroes compete on a true road circuit. Drivers such as Jim Clark, Jackie Stewart, Graham Hill, Surtees, Rindt and Brabham came to Oulton for the Gold Cup and spectators could see and even meet them in the open paddock atmosphere of the time. Major sports & GT races such as the RAC TT were also on the Oulton Park calendar with Lola T70s, GT40s, Ferraris, Lotii and, of course, Chevrons in the hands of Hulme, Redman, Bonnier and other top drivers. Club race meetings provided variety and plenty of action with the VSCC's Seaman Trophies meeting for vintage and historic racers being the highlight of the season for many racegoers.
