Odes Sharon Olds 2016-09-20 Following the Pulitzer prize-winning collection Stag's Leap, Sharon Olds gives us a stunning book of odes. Opening with the powerful and tender "Ode to the Hymen," Olds addresses and embodies, in this age-old poetic form, many aspects of love and gender and sexual politics in a collection that is centered on the body and its structures and pleasures. The poems extend parts of her narrative as a daughter, mother, wife, lover, friend, and poet of conscience that will be familiar from earlier collections, each episode and memory burnished by the wisdom and grace and humor of looking back. In such poems as "Ode to My Sister," "Ode of Broken Loyalty," "Ode to My Whiteness," "Blow Job Ode," and "Ode to the Last Thirty-Eight Trees in New York City Visible from This Window," Olds treats us to an intimate examination that, like all her work, is universal, by turns searing and charming in its honesty. From the bodily joys and sorrows of childhood to the deaths of those dearest to us, Olds shapes the world in language that is startlingly fresh, profound in its conclusions, and life-giving for the reader.

**Radio Frequency and Microwave Electronics Illustrated**

Matthew M. Radmanesh 2001 Foreword by Dr. Asad Madni, C. Eng., Fellow IEEE, Fellow IEE Learn the fundamentals of RF and microwave electronics visually, using many thoroughly tested, practical examples RF and microwave technology are essential throughout industry and to a world of new applications-in wireless communications, in Direct Broadcast TV, in Global Positioning System (GPS), in healthcare, medical and many other sciences. Whether you're seeking to strengthen your skills or enter the field for the first time, Radio Frequency and Microwave Electronics Illustrated is the fastest way to master every key measurement, electronic, and design principle you need to be effective. Dr. Matthew Radmanesh uses easy mathematics and a highly graphical approach with scores of examples to bring about a total comprehension of the subject. Along the way, he clearly introduces everything from wave propagation to impedance matching

in transmission line circuits, microwave linear amplifiers to hard-core nonlinear active circuit design in Microwave Integrated Circuits (MICs). Coverage includes: A scientific framework for learning RF and microwaves easily and effectively Fundamental RF and microwave concepts and their applications The characterization of two-port networks at RF and microwaves using S-parameters Use of the Smith Chart to simplify analysis of complex design problems Key design considerations for microwave amplifiers: stability, gain, and noise Workable considerations in the design of practical active circuits: amplifiers, oscillators, frequency converters, control circuits RF and Microwave Integrated Circuits (MICs) Novel use of "live math" in circuit analysis and design Dr. Radmanesh has drawn upon his many years of practical experience in the microwave industry and educational arena to introduce an exceptionally wide range of practical concepts and design methodology and techniques in the most comprehensible fashion. Applications include small-signal, narrow-band, low noise, broadband and multistage transistor amplifiers; large signal/high power amplifiers; microwave transistor oscillators, negative-resistance circuits, microwave mixers, rectifiers and detectors, switches, phase shifters and attenuators. The book is intended to provide a workable knowledge and intuitive understanding of RF and microwave electronic circuit design. Radio Frequency and Microwave Electronics Illustrated includes a comprehensive glossary, plus appendices covering key symbols, physical constants, mathematical identities/formulas, classical laws of electricity and magnetism, Computer-Aided-Design (CAD) examples and more. About the Web Site The accompanying web site has an "E-Book" containing actual design examples and methodology from the text, in Microsoft Excel environment, where files can easily be manipulated with fresh data for a new design.

**Disciple IV** Abingdon Press 2005-05 DISCIPLE IV UNDER THE TREE OF LIFE is the final study in the four-phase DISCIPLE program and is prepared for those who have completed BECOMING DISCIPLES THROUGH BIBLE STUDY. The study concentrates on the Writings (Old Testament books not in the Torah or the Prophets), the Gospel of John, and Revelation. Emphasis on the Psalms as Israel's hymnbook and prayer book leads natural to an emphasis on worship in the study. Present through the entire study is the sense of living toward completion - toward the climax of the message and the promise, extravagantly pictured in Revelation. The image of the tree and the color gold emphasize the prod and promise in the Scriptures for DISCIPLE IV: UNDER THE TREE OF LIFE. The word under in the title is meant to convey invitation, welcome, sheltering, security, and rest - home at last. Commitment and Time Involved 32 week study Three and one-half to four hours of independent study each week (40 minutes daily for leaders and 30 minutes daily for group members) in preparation for weekly group meetings. Attendance at weekly 2.5 hour meetings. DVD Set Four of the five videos in this set contain video segments of approximately ten minutes each that serve as the starting point for discussion in weekly study sessions. The fifth video is the unique component that guides an interactive worship experience of the book of Revelation. Under the Tree of Life Scriptures lend themselves to videos with spoken word, art, dance, music, and drama. Set decorations differs from segment to segment depending on the related Scripture and its time period. Set decoration for video segments related to the Writings generally has a Persian theme. Set decoration for the New Testament video segments emphasizes the simpler life of New Testament times.

**Chinese Archery** Stephen Selby 2000-01-01 Chinese Archery is a broad view of traditional archery in China as seen through the eyes of historians, philosophers, poets, artists, novelists and strategists from 1500 BC until the present century. The book is written around parallel text translations of classical Chinese sources some

famous and some little known in which Chinese writers give vivid and detailed explanations of the techniques of bow-building, archery and crossbow technique over the centuries. The author is both a sinologist and practising archer; his translations make the original Chinese texts accessible to the non-specialist. Written for readers who may never have picked up a book about China, but still containing a wealth of detail for Chinese scholars, the book brings the fascinating history of Chinese archery back to life through the voices of its most renowned practitioners.

**What Fanon Said** Lewis R. Gordon 2015-04-01 Antiracist racism avows reason is white while emotion, and thus supposedly unreason, is black. Challenging academic adherence to this notion, Lewis R. Gordon offers a portrait of Martinican-turned-Algerian revolutionary psychiatrist and philosopher Frantz Fanon as an exemplar of "living thought" against forms of reason marked by colonialism and racism. Working from his own translations of the original French texts, Gordon critically engages everything in Fanon from dialectics, ethics, existentialism, and humanism to philosophical anthropology, phenomenology, and political theory as well as psychiatry and psychoanalysis. Gordon takes into account scholars from across the Global South to address controversies around Fanon's writings on gender and sexuality as well as political violence and the social underclass. In doing so, he confronts the replication of a colonial and racist geography of reason, allowing theorists from the Global South to emerge as interlocutors alongside northern ones in a move that exemplifies what, Gordon argues, Fanon represented in his plea to establish newer and healthier human relationships beyond colonial paradigms.

Moving from a filthy brothel to a fine manor house, from the world of street fighters to the world of champions, *The Fair Fight* is a vivid, propulsive historical novel announcing the arrival of a dynamic new talent. Born in a brothel, Ruth doesn't expect much for herself beyond abuse. While her sister's beauty affords a certain degree of comfort, Ruth's harsh looks set her on a path of drudgery. That is until she meets pugilist patron George Dryer and discovers her true calling—fighting bare knuckles in the prize rings of Bristol. Manor-born Charlotte has a different cross to bear. Scarred by smallpox, stifled by her social and romantic options, and trapped in twisted power games with her wastrel brother, she is desperate for an escape. After a disastrous, life-changing fight sidelines Ruth, the two women meet, and it alters the perspectives of both of them. **Growing Yourself Up** Jenny Brown 2017-11-01 To be human is to be in relationships. We can't survive without them but it's in relationships that we can so easily get unravelled. Some relationships just seem to do us in. Either we feel like we lose ourselves or feel burnt out from futile efforts to make things right for another. In our relationships we can experience the very best of ourselves and the very worst. The message of *Growing Yourself Up* is that you can't separate understanding the individual from understanding relationships. All of life's relationships are integral to increasing self-awareness and maturity. And it's not necessarily the comfortable relationships that promote personal growth. In this 2nd edition of the bestselling book, Jenny examines how to help others without fostering dependency, and how to determine what kind of help you or others want from therapists. This is in response to the many lay and professional people who have found this book valuable personally and want to know how to help others grow. Drawing from Bowen family systems theory, the book takes you on a journey through each stage of life to see predictable patterns of relationships and to show how to use this knowledge to make purposeful adjustments in yourself; as well as lending a mature helping hand to others. The result is a sturdier self, sturdier relationships and a refreshing new way to view life's challenges and opportunities.

**Latin Curse Tablets of the Roman Empire** Daniela Urbanová 2018 The aim of this work is to map and analyse the extant Latin 'defixiones' whose production within the Roman Empire is attested from the 2nd cent. BCE to the end of the 4th/beginning of the 5th cent. CE. There are altogether five hundred Latin curse texts most of which are inscribed on lead tablets. These were intended to

affect the actions or health of people/animals against their will and with the help of supernatural powers. As such, they provide the epigraphical evidence of magical practices which were widespread throughout the whole Mediterranean of antiquity. They are often aimed at rivals e.g. in circus or in love, opponents in lawsuits, or enemies, in general. Additionally, there is a special category of so-called 'prayers for justice' which are traditionally classified among 'defixiones' and share several characteristics with them. They are predominantly used against thieves, and are meant to harm or eliminate the culprit. At the same time, their aim is to achieve justice: returning the stolen property, a ?just? punishment, or revenge for the damage suffered (usually a theft, treachery, or fraud).

**The Brown Water Navy In The Mekong Delta: COIN In The Littorals And Inland Waters** Lieutenant Commander Richard Sessoms 2014-08-15 In 1964 the Viet Cong was firmly entrenched in the Mekong Delta region. Using fear and terror tactics, the insurgency gained control of the population creating a safe haven for the movement to thrive and expand. The United States and the Government of South Vietnam recognized the infiltration problem in the Mekong Delta but their military organizations were either unable or incapable to deal with the problem. The geography of the region made it impossible for a U.S. Army or Marine Corps division to operate effectively and the South Vietnamese Army and Navy lacked the training and equipment to operate successfully. In response to these obstacles, Secretary of Defense, Robert McNamara, commissioned the U.S. Navy to develop a fighting force capable of operating in the delta and ridding the region of the Viet Cong influence. The Navy used for main Operations: MARKET TIME, GAME WARDEN, -The Mobile Riverine Force, and SEALORDS to achieve these goals. In four short years the Brown Water Sailors experienced marked success with Viet Cong influence minimized and resupply efforts rerouted to the tortuous Ho Chi Minh Trail. However, by the end of 1968 American resolve to fight a war in South Vietnam had deteriorated and the

Government needed a way out. President Nixon's Vietnamization program provided the exit for American forces and in turn mitigated the Brown Water Navy's successes of the previous four years. The Brown Water Navy overcame tremendous obstacles in less than one year to create and deploy a formidable fighting force to the Mekong Delta. In four years aggressive strides against the Viet Cong insurgency were achieved only to be mitigated by the effects of Vietnamization.
