**Jean Desmet's Dream Factory** Jean Desmet 2015-03-24 The early twentieth-century film industry grew with the help of passionate entrepreneurs like Jean Desmet (1875-1956), who went from being a carnival showman to one of the Netherlands' leading cinema operators, and finally became the country's first professional film distributor. The first decades of film were its most adventurous years--a period of astonishing technological development, artistic ingenuity and creative entrepreneurship. With his cinema company, Desmet was part of the transformation of cinema from a novelty into a major popular entertainment industry. The Jean Desmet Collection, now housed at the EYE Film Institute, Amsterdam, consists of more than 900 films, mostly from France, America, Italy and England, including masterpieces that were considered lost for decades. In this publication the story of the early days of the medium is told through films in the Desmet Collection, along with related posters, correspondence, photographs and stills.

**Livestock, Dead Stock** Seymour Grufferman 2020-09 A disgruntled British veterinary technician has access to a large repository of animal diseases at Britain's main veterinary laboratory. To exact revenge for his mistreatment, he steals samples of highly infectious agents for animal diseases and sells them to al Qaeda. Ayman al Zawahiri, the head of al Qaeda, decides to use the agents to mount a bioterrorism attack on the US. He first does a trial run with the causative agent for mad cow disease to check whether it would work. The agent is sprinkled on restaurant food and causes four cases of a horrific disease, Creutzfeldt-Jakob disease (CJD) which is also caused by the mad cow disease agent. Al Zawahiri then decides to use all the infectious material he bought to attack US farm animal production. Winston Sage, a retired epidemiologist

who had previously helped the FBI interdict a terrorist attempt to poison US food supplies, is invited to help investigate the four cases of CJD. While the investigation is flubbed and going nowhere, the terrorists introduce foot and mouth disease, Rinderpest, swine flu and Newcastle disease into US herds and flocks via placing the infectious agents into feed supplies. These are highly contagious and deadly diseases of livestock. The terrorists also spread a fungal disease of wheat by aerial spraying of fields with fungal agents. Devastating economic damage is inflicted on US agriculture, to the tune of billions of dollars of losses. As a result, no one will buy US meat or wheat. It also leads to demonstrations and riots by alarmed citizens. Sage is left furious about the incompetence of the CIA and FBI and the ruthlessness of al Qaeda. He is invited to a meeting with the US President and recommends a complete overhaul of intelligence activities, with which the President agrees..

Louisiana Sports Legends and Heroes Earl B. Heard 2012-11-01 There are many books out there about famous Louisiana athletes and their accomplishments, but little is said about their contributions beyond the field/court. So many of our state's greatest and lesser known athletes and coaches have used their fame, successes, and faith to make sure those less fortunate get the help they need. Whether it's Warrick Dunn and his famous "Homes for the Holidays" program or Sid Edwards and his work with autism, these athletes and coaches are perfect examples of using success for good. Louisiana Sports Legends and Heroes: Leaving a Legacy shows how these athletes and coaches are creating a positive image of what real heroes are, not only across America but also globally.

Little Things That Stick In The Mind Allan Krosch 2020-12-20 Allan Krosch has led an interesting life, and collected colourful stories of people, places, historical events and memorable facts that he shares with ease in conversation and in the pages of this book. Now in retirement from his career as a civil engineer, he gives us access to some of the people he met, the changes he has witnessed in his life and work, and the wisdom he has gathered as an observer and a leader of people. In 'Little Things That Stick in the Mind - Some Stories from my Life Experiences', we read about his early life on a small-crop farm in a part of Brisbane that was reclaimed to build the Brisbane airport. We are also present at family and social events, overseas work travel, and we witness some of the mischief he instigated, as well as the near-misses he luckily avoided. Allan spent his career at the Department of Main Roads (later Transport and Main Roads) working, as he likes to say, 'For the good of the people of Queensland!' In addition to his Engineering qualifications, Allan has degrees in Economics and in Business Administration. Apart from family, and especially grandchildren, Allan's interests include managing family investments, playing golf, and singing in a choir. His primary motivator is solving challenges. These include cryptic crosswords, sudoku puzzles and home maintenance issues. The latter do arise from time to time for someone who has lived for 45 years (with his wife of now 51 years) in the same house - which was built in 1910. But that is another story.
