**Tom Kundig: Houses** Dung Ngo 2006-11-09

"Architect Tom Kundig is known worldwide for the originality of his work.

This paperback edition of Tom Kundig: Houses, first published in 2006, collects five of his most prominent early residential projects, which remain touchstones for him today. In a new preface written for this edition, Kundig reflects on the influence that these designs continue to have on his current thinking. Each house, presented from conceptual sketches through meticulously realized details, is the product of a sustained and active collaborative process among designer, builder, and client. The work of the Seattle-based architect has been called both raw and refined--disparate characteristics that produce extraordinarily inventive designs inspired by both the industrial structures ubiquitous to his upbringing in the Pacific Northwest and

**Affective Health and Masculinities in South Africa**

Hans Reihling

2020-04-24

*Affective Health and Masculinities in South Africa* explores how different masculinities modulate substance use, interpersonal violence, suicidality, and AIDS as well as recovery cross-culturally. With a focus on three male protagonists living in very distinct urban areas of Cape Town, this comparative ethnography shows that men's struggles to become

invulnerable increase vulnerability. Through an analysis of masculinities as social assemblages, the study shows how affective health problems are tied to modern individualism rather than African 'tradition' that has become a cliché in Eurocentric gender studies. Affective health is conceptualized as a balancing act between autonomy and connectivity that after colonialism and apartheid has become compromised through the imperative of self-reliance. This book provides a rare perspective on young men's vulnerability in everyday life that may affect the reader and spark discussion about how masculinities in relationships shape physical and psychological health. Moreover, it shows how men change in

of distress in ways that may look different than global health and gender-transformative approaches envision. Thick descriptions of actual events over the life course make the study accessible to both graduate and undergraduate students in the social sciences. Contributing to current debates on mental health and masculinity, this volume will be of interest to scholars from various disciplines including anthropology, gender studies, African studies, psychology, and global health.

function of the Davidic monarch. Egyptologists see their land as uniquely independently minded despite conquests, while Hellenistic scholarship tends to evaluate the interface between Hellenism and native traditions without reference to the previous two centuries of Persian rule. This volume brings together in dialogue a broad array of scholars with the goal of seeking a broader context for assessing Persian kingship through the anthropological concept of political memory.

*In a Barren Land* Paula M. Marks 1999-03-17 Award-winning historian Paula Mitchell Marks reconfirms her status as one of the foremost contemporary chroniclers

of the American West with this often appalling, yet always engrossing, account of American Indian cultures under siege from 1607 to the present. In a dazzling synthesis of the latest research with masterful storytelling, Marks portrays the systematic dispossession of America's original inhabitants over centuries of broken promises and bloody persecutions. Well-known events and personalities -- the Battle of Little Big Horn, the Trail of Tears, Geronimo, to name a few -- are juxtaposed with lesser-known but equally pivotal episodes such as the Navajos' Long Walk, the Snake Indian resistance, and more.

*The Celestine Prophecy* James Redfield 1995-09-01 THE #1 BESTSELLING INTERNATIONAL PHENOMENON - NOW WITH A **NEW PREFACE**

[www.grepper.com](http://www.grepper.com) on September 25, 2022 by guest

You have never read a book like this before--a book that comes along once in a lifetime to change lives forever. In the rain forests of Peru, an ancient manuscript has been discovered. Within its pages are 9 key insights into life itself -- insights each human being is predicted to grasp sequentially; one insight, then another, as we move toward a completely spiritual culture on Earth. Drawing on ancient wisdom, it tells you how to make connections among the events happening in your life right now and lets you see what is going to happen to you in the years to come. The story it tells is a gripping one of adventure and discovery, but it is also a guidebook that has the power to crystallize your perceptions of why you

are where you are in life and to direct your steps with a new energy and optimism as you head into tomorrow. Praise for The Celestine Prophecy "A gripping adventure story filled with intrigue, suspense, and spiritual revelations." - Commonwealth Journal "A spiritual classic...a book to read and reread, to cherish, and to give to friends." - Joan Borysenko, PhD, author of Fire in the Soul "In his inimitable style of great storytelling, Redfield opens us up to a world of insight, inspiration, synchronicity, and power." - Deepak Chopra **Extraction Empire** Pierre Belanger 2018-07-31 How Canada became an empire in its own right and how Canadian life came to be mediated through mineral extraction. Extraction is the process and practice that defines

Canada, at home and abroad. Of the nearly 20,000 mining projects in the world from Africa to Latin America, more than half are Canadian operated. Not only does the mining economy employ close to 400,000 people in Canada, it contributed \$57 billion CAD to Canada's GDP in 2014 alone. Globally, more than 75 percent of the world's mining firms are based in Canada. The scale of these statistics naturally extends the logic of Canada's historical legacy as state, nation, and now as global resource empire. Canada, once a far-flung northern outpost of the British Empire, has become an empire in its own right. This book examines both the historic and contemporary Canadian culture of extraction, with essays, interviews, archival material, and

multimedia visualizations. The essayists and interviewees—who include such prominent figures as Naomi Klein and Michael Ignatieff—come from a range of fields, including geography, art, literature, architecture, science, environment, and business. All consider how Canadian life came to be mediated through mineral extraction. When did this empire emerge? How far does it reach? Who gains, who loses? What alternatives exist? On the 150th anniversary of the creation of Canada by Queen Victoria's Declaration of Confederation, it is time for Canada to reexamine and reimagine its imperial role throughout the world, from coast to coast, from one continent to another.
