In Mortal Combat John Toland 2016-05-31 A history of the Korean War with soldier's-eye views from both sides, by the Pulitzer Prize-winning author of *The Rising Sun and Infamy*. Pulitzer Prize-winning author John Toland reports on the Korean War in a revolutionary way in this thoroughly researched and riveting book. Toland pored over military archives and was the first person to gain access to previously undisclosed Chinese records, which allowed him to investigate Chairman Mao's direct involvement in the conflict. Toland supplements his captivating history with in-depth interviews with more than two hundred American soldiers, as well as North Korean, South Korean, and Chinese combatants, plus dozens of poignant photographs, bringing those who fought to vivid life and honoring the memory of those lost. *In Mortal Combat* is comprehensive in its discussion of events deemed controversial, such as American brutality against Korean civilians and

allegations of American use of biological warfare. Toland tells the dramatic account of the Korean War from start to finish, from the appalling experience of its POWs to Mao's prediction of MacArthur's Inchon invasion. Toland's account of the "forgotten war" is a must-read for any history aficionado.

Never before had the performance and design of a race bike been so faithfully carried over to the street. Jesus and the Samurai Michael Zomber 2009-11-05 By 250 AD, Christianity had spread throughout India and China. Known as the Shining Religion or the

Luminous Teaching, it drew adherents from Buddhism and Hinduism who were seeking a faith that taught the possibility of achieving a society founded on love and compassion for their fellow man. The new doctrine reached the island nation of Japan where it was so well received that Christianity threatened to supplant Buddhism as the dominant religion. By the close of the 16th century Japanese Christians numbered in the millions. Fifty years later Christianity was officially proscribed and Christians faced execution for openly practicing their faith. Jesus and the Samurai tells their fascinating story with facts drawn from ancient and modern sources.

Apollo Pilot Donn Eisele 2017-01-01 In October 1968 Donn Eisele flew with fellow astronauts Walt Cunningham and Wally Schirra into Earth orbit in Apollo 7. The first manned mission in the Apollo program and the first manned flight after a fire during a launch pad test killed three astronauts in early 1967, Apollo 7 helped restart NASA's manned-spaceflight program. Known to many as a goofy, lighthearted prankster, Eisele worked his way from the U.S. Naval Academy to test pilot school and then into the select ranks of America's prestigious astronaut corps. He was originally on the crew of Apollo 1 before being replaced due to injury. After that crew died in a horrific fire, Eisele was on the crew selected to return Americans to space. Despite the success of Apollo 7, Eisele never flew in space again, as divorce and a testy crew commander led to the three astronauts being labeled as troublemakers. Unbeknownst to everyone, after his retirement as a technical assistant for manned spaceflight at NASA's Langley Research Center in 1972, Eisele wrote in detail about his years in the air force and his time in the Apollo program. Long after his death, Francis French discovered Eisele's unpublished memoir, and Susie Eisele Black (Donn's widow) allowed French access to her late husband's NASA files and personal effects. Readers can now experience an Apollo story they assumed would never be written as well as the story behind its discovery.

Gotta Keep on Tryin' Virginia DeBerry 2008-01-08 From the bestselling authors of *Tryin' to Sleep in the Bed You Made* comes a heartwarming tale of how true friendship can overcome life's obstacles. Gayle Saunders and Patricia

Reid have been lifelong friends, as close as sisters. When they were teens their dreams led them down separate paths and away from each other. But they reunited as adults, drawn back together by a bond of friendship that stood the test of time. Now Pat and Gayle co-own the Ell & Me Company, a business they founded based on a character Gayle created years ago for her daughter. Things are going well, but real-life dramas ensue as each must face issues from the past in order to protect the future. Pat and Marcus look like the perfect twenty-first-century couple -- smart, talented, each at the helm of a high-profile enterprise and at the top of their game. But behind closed doors their marriage is challenged by the stresses of a two-entrepreneur household. Will their professional pursuits leave them time for each other and a family, or carry them into the arms of others? Will a paternity claim prove to be too much of an obstacle to overcome? Gayle faces her own family drama and struggles to maintain control of her life. Despite dating other men, has she ever really gotten over her ex-husband, Ramsey, the gambler who left her and their daughter, Vanessa, in financial ruin? Gayle bends over backward to provide a stable, comfortable home for Vanessa, and support her dream of becoming a dancer. And Vanessa, a rebellious and hurtful teen, seems just as devoted to making Gayle pay for every mistake she has ever made. And what ever happened to Ramsey? In *Gotta Keep on Tryin'*, Virginia DeBerry and Donna Grant bring us heroines who remind you, for better and worse, of women everywhere -- women who know that true friendship keeps us grounded. And when things get rough the bond between women can be stronger than any trials we face.

Affective Health and Masculinities in South Africa Hans Reihling 2020-04-24
Affective Health and Masculinities in South Africa explores how different masculinities modulate substance use, interpersonal violence, suicidality, and AIDS as well as recovery cross-culturally. With a focus on three male protagonists living in very distinct urban areas of Cape Town, this

comparative ethnography shows that men's struggles to become invulnerable increase vulnerability. Through an analysis of masculinities as social assemblages, the study shows how affective health problems are tied to modern individualism rather than African 'tradition' that has become a cliché in Eurocentric gender studies. Affective health is conceptualized as a balancing act between autonomy and connectivity that after colonialism and apartheid has become compromised through the imperative of self-reliance. This book provides a rare perspective on young men's vulnerability in everyday life that may affect the reader and spark discussion about how masculinities in relationships shape physical and psychological health. Moreover, it shows how men change in the face of distress in ways that may look different than global health and gender-transformative approaches envision. Thick descriptions of actual events over the life course make the study accessible to both graduate and undergraduate students in the social sciences. Contributing to current debates on mental health and masculinity, this volume will be of interest to scholars from various disciplines including anthropology, gender studies, African studies, psychology, and global health.
